"10 FASHION DESIGNERS YOU NEED TO KNOW"

"It is not a matter of memorising names and dates, this can be found in any text. The important thing is to understand the processes and transformations that led to the facts; the creations of these designers tell us about the values, aesthetic considerations, individual and social identities of an era. It is a matter of getting to know these stylists better, who have forever marked world fashion and who continue and will continue to be admired by everyone."
